**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

Docket Number (Optional)  
**SZABO-205.2**

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number US 6,326,962 B1 granted December 4, 2001 and for which a reissue patent is sought on the invention entitled GRAPHIC USER INTERFACE FOR DATABASE SYSTEM,

the specification of which

☒ is attached hereto.

☐ was filed on \_\_\_\_\_ as reissue application number \_\_\_\_\_

and was amended on \_\_\_\_\_  
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The patent contains at least one error, by which applicant claimed less than he had a right to claim. Applicant therefore seeks a broadening reissue patent. Claim 1, in contrast to claim 25, recites a graded representation portion, which is not believed to be required for patentability. In addition, applicant believes that he is entitled to a claims which encompass a computer readable medium, e.g., per claims 24 and 32. Applicant also believes he is entitled to claims, outside the scope of the originally issued claims, which relate to a method of arranging or ranking members of a set based on blockmodelling; their relations and/or references, to and/or from, other members; and/or an importance of members which are related and/or have a referential relation. See claims 33-39.

Applicant has also become aware of prior art references relating to, for example, Alphalider, VisDB, IVEE, ASTER, and MMVIS, which may be deemed material to an examination of the claims. These are presented in an accompanying information disclosure statement.
